Overview ↗

MTA Hanoi 2023 has marked a transformation for the mechanical manufacturing industry in the North with a plethora of new business opportunities opening in the North. The trust and affection of experts in the industry as well as visitors from both domestic and international markets is the driving force for MTA Hanoi to grow stronger year by year.

Let's review the highlights of the 2023 exhibition and stay updated with the latest information about MTA Hanoi 2024!

Sharing from exhibitors ↗

Mr. Nguyễn Xuân Thành | Technical Marketing Director

BEIJING JINGDIAO GROUP VIETNAM

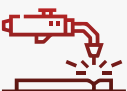

This is the 6th time Beijing Jingdiao has participated in MTA. In general, MTA Hanoi this year is very professionally organized. The number of visitors from early morning up to now is very large. We hope that MTA will always attract more businesses in the field of precision engineering and manufacturing to visit, exchange, and share manufacturing technology in production.

VAN SU LOI CO.,LTD

Mr. Nguyễn Thị Thanh Trà | Deputy General Director of Sales

For the ninth time, MTA has taken place in Hanoi, and our company has taken part nine times as well. We have consistently participated in all of the MTA Hanoi exhibitions during those years. The MTA is the biggest mechanical engineering show in the Northern region. This year's MTA is opportune since it falls in the fourth quarter of 2023, just when companies are beginning to consider industrial automation solutions and automation programs. This is a great venue for us to advertise our products.

Exhibition Profiles ↗

					
Automation	Factory Equipment / Ancillary & Supporting Equipment	Measurement & Testing Technology	Cutting Tools & Tooling Systems	Software & Prototyping Systems	General Service
					
Material Handling & Storage	Metal Forming / Sheet Metal	Mould & Die	Metal-Cutting Machines	Welding Technology	Surface & Heat Treatment

Visitor Profiles ↗

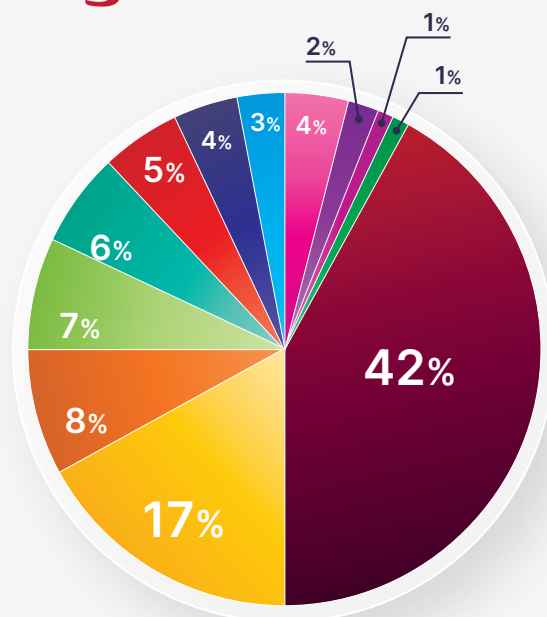

- Aviation & Aerospace
- Automotive & Auto Parts
- Electrical & Electronics
- Furniture & Household Goods
- Manufacturing
- Heat, Ventilation, Airconditioning & Refrigeration (HVACR)
- Machining Services
- Medical Devices Manufacturing
- Metal & Fabrication
- Oil & Gas / Chemical & Process
- Engineering
- Plastics & Rubber Products
- Precision Engineering & Supporting Industries
- Pump & Valves
- Sheet Metal Working Plants
- Tools, Mould & Die
- Toys & Leisure Goods Manufacturing
- Welding
- Wire / Tube / Pipe
- Trade Association / Government
- Agency / Academia
- Publication, Press & Media

Why should be
MTA HANOI 2024 exhibitors ?

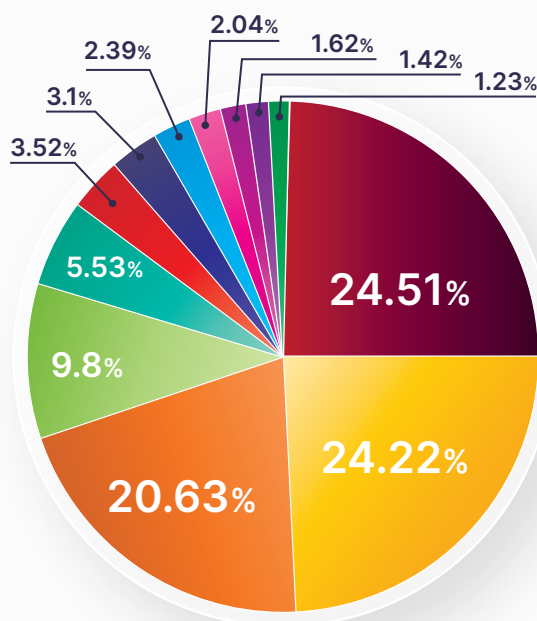

- 1 Recognized as one of the leading exhibitions in the mechanical industry, showcasing outstanding products from top domestic and international enterprises in the Northern region **over 9 editions**
- 2 International seminar program featuring the participation of **leading experts in the field**
- 3 The event updates the **latest trends in the industry**, opening superior development opportunities for businesses

Potential and Development Orientation of Mechanical Support Industry in Vietnam

The content of the report from the Vietnam Association of Mechanical Enterprises (VAMI) shows that the domestic mechanical component manufacturing sector has achieved good quality, competing with other countries in the region. Enterprises are focusing on producing components and developing high-quality products to meet domestic and international demand, especially from industrial support enterprises. The supply of metal components in the country has met a large part of the needs of manufacturing sectors such as motorcycles, automobiles, agricultural machinery, and construction machinery.

Economic Recovery Signals from the Northern Industrial Center

Possitive signal of a revival in industrial production nationwide compared to previous months. The estimated industrial production index has increased by 3.7% compared to the same period last year. The growth is mainly concentrated in certain localities such as Bac Ninh, Thai Nguyen, and Vinh Phuc. Specifically, the electronics, computer, and optical product manufacturing sectors have shown noteworthy growth.

Source: laodong.vn

According to the report by the General Statistics Office, the industrial production index (IIP) in early 2024 increased by 18.3% compared to the same period last year

In 2024 and the time ahead, to continue developing the industrial sector, the Ministry of Industry and Trade will collaborate with relevant ministries, sectors, and agencies to create favorable conditions for investment and business. At the same time, there will be a focus on developing fundamental industries, prioritized industries such as materials, mechanics, manufacturing, and industries with advantages in labor utilization and exports such as electronics. Particularly, the development of domestic private industrial enterprises is an important driver for the development of the national industrial sector.

Allocating over 870 billion dong for the development of supporting industries until 2025

Deputy Prime Minister Tran Hong Ha has recently signed Decision No. 71/QD-TTg dated January 17, 2024, amending and supplementing some provisions of Decision No. 68/QD-TTg dated January 18, 2017, regarding the Program for the Development of Supporting Industries from 2016 to 2025. This decision adjusts and supplements the contents of the program implemented during the period from 2021 to 2025. The program emphasizes the connection and support for supporting industrial enterprises to become suppliers of products to customers domestically and internationally, as well as attracting foreign investment.
